

DRY DOCKING JOBS OF 49MTR X 13.2MTR X 4.6MTR FIRE FIGHTING VESSEL

PROJECT DETAILS:

Title	: DRY DOCKING JOBS
Location	: DUBAI MARITIME CITY
Vessel	: STANFORD MERMAID
Owner	: STANFORD MARINE LLC
Length	: 49 Meters
Breadth	: 13.2 Meters
Depth	: 4.6 Meters
GRT	: 1106 T
DWT	: 860 T

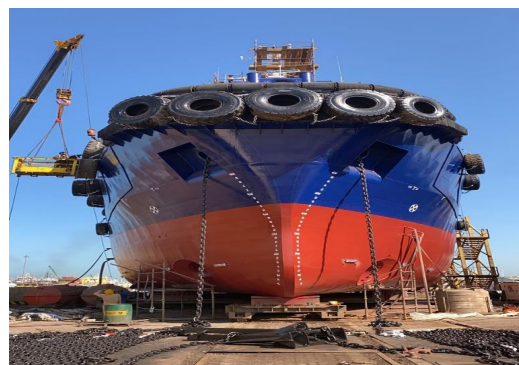

Fire Fighting Vessel **STANFORD MERMAID** arrived in Dubai Maritime City on January 25,2023, to undergo dry docking jobs with **NORDMARIN LLC** as the main contractor. The Vessel docked on January 31,2023 and **NORDMARIN LLC** provided dry docking jobs and general services for the vessel.

NORDMARIN LLC successfully executed significant drydocking projects, specifically focusing on essential surveys. The hull received meticulous attention through hydroblasting and painting procedures, ensuring not only aesthetic enhancements but also protective measures against corrosion and wear. The replacement of pipelines and the thorough overhaul of valves, air vents, pumps, and motors reflected a commitment to optimizing the vessel's functionality and operational efficiency. Tyre fenders were replaced and reinforced with new holders for increased resilience. Bottom plugs underwent an upgrade, incorporating fresh lead washers to prevent potential issues. The meticulous calibration of safety relief valves underscored a commitment to safety standards, aligning them precisely with specified test pressures. The project further encompassed the critical components of the anchor and anchor chain, involving hydroblasting, calibration, and painting to ensure their optimal condition. Damaged deck woods were systematically replaced with new deck woods.

STANFORD MERMAID was undocked on February 28,2023. After all jobs completed to the full satisfaction of the client, vessel sailed out from Dubai Maritime City on March 11,2023.
