Location	: DUBAI MARITIME CITY
Vessel	: STANFORD CARACARA
Owner	: STANFORD MARINE LLC
Length	: 57.5 Meters
Breadth	: 13.8 Meters
Depth	: 5.5 Meters
GRT	: 1393 T
DWT	: 1104 T

In collaboration with **STANFORD MARINE LLC**, Nordmarin LLC performed dry docking jobs for their commercial vessel **STANFORD CARACARA** as the main contractor. **NORDMARIN LLC** welcomed her arrival to Dubai Maritime City on August 15, 2021 and docked on the same day.

NORDMARIN LLC carried out repair jobs both on dry dock as well as wharfage. Our team carried out blasting, painting, fabrication, mechanical, and rigging works. Once the vessel was docked, we carried out hydro blasting of hull, bulwark, main deck internals & crash rails. The same areas were also painted by our team. Various tanks such as ballast, double bottom, wing, dirty oil, Lube oil were also cleaned. Our mechanical team carried out Anchor chain refurbishment, Anchor Windlass brake band renewal and overhauling of valves & pumps. Electrical department was tasked with the overhauling of 12 motors and 4 blowers onboard the vessel. Our fabrication team completed renewal of 75 pipe spools, overhauling of air vents and strainers, carried out various fabrication, repair, removal, installation and refit works throughout her stay at the dock as well as wharfage. The rigging team ensured all the rigging works happened in sync with other works so that all works carried out were completed within the stipulated time frame.

STANFORD CARACARA undocked on September 1, 2021. After all jobs completed to the full satisfaction of the client, the vessel sailed out from Dubai Maritime City on September 20, 2021.
